

Beyond technology: questioning, research and the information literate school, 2000, 168 pages, Jamieson Angus McKenzie, 0967407826, 9780967407821, FNO Press, 2000

This book integrates the best of previously-published articles to show how information literacy can be seen as the prime purpose for networking classrooms. The author shows how a commitment to frequent questioning, student research, and resource-based learning projects can both improve student performance on demanding state curriculum standards and tests.
