Chronicles the most amazing and secretive research project in recorded history. Starting with the Philadelphia Experiment of 1943, invisibility experiments were conducted aboard the USS Eldridge that resulted in full-scale teleportation of the ship and crew. Forty years of massive research ensued, culminating in bizarre experiments at Montauk Point that actually manipulated time itself. The controversial lectures by Al Bielek on the Montauk Project and the Philadelphia Experiment are similar to the information in this book. The book includes diagrams and photos of the time-travel devices themselves, plus photocopies of documents and schematic diagrams.
